

BELGIUM

AGENDA

The European Council convenes to create a coordinated support package for the Republic of Lodovna.

YOUR OPENING SPEECH:

Thank you, Madam/Mr President,
for giving me the floor.

We are willing to contribute a minimum of

… in currency

to the European support package for the Republic of Lodovna.

Thank you

OFFICIAL POSITION OF THE GOVERNMENT

Lodovna deserves our support, and we recognize the importance of joint European action. Nevertheless, we are deeply concerned about the risks this crisis poses to our own security.

That is why our government has chosen a balanced approach: we are making a limited contribution to the EU fund, but primarily investing in strengthening our own military. We want to help, but we must not neglect our own defence.

BACKGROUND INFORMATION

Support amongst your population for an increase of spending to save Lodovna.

Need for further investment in own defence and infrastructure.

Security threat by Deneski for your country if Lodovna falls.

OFFICIAL POSITION OF THE GOVERNMENT

We live in uncertain times. The situation in Lodovna is tragic, but our first responsibility is to protect our own citizens. The threat on our borders is real. That is why our government chooses to invest in strengthening the national army. This is the only way we can be prepared for possible escalation. International aid is important, but not at the expense of our security.

OFFICIAL POSITION OF THE GOVERNMENT

We are aware of the risk of Lodovna falling, and that we too may be affected by the consequences. Nevertheless, we believe that a strong joint response is the best weapon against further destabilisation. Our government chooses to invest most of its resources in supporting Lodovna.

At the same time, we keep a small portion aside for necessary domestic precautions. European unity remains the priority for us.

OFFICIAL POSITION OF THE GOVERNMENT

Our government is convinced that European solidarity is now more important than ever. If we abandon Lodovna, we risk the credibility and unity of the European Union. This is not only a humanitarian duty but also a strategic choice: stability in the region is in everyone's interest. We are therefore ready to contribute a larger share of our resources to the joint fund to help Lodovna stand firm.

Proposal to create

A COORDINATED EUROPEAN SUPPORT PACKAGE

to rescue the Republic of Lodovna

CONTEXT OF THE PROPOSAL

The conflict reaches a new low. The United States is withdrawing its support. Deneski forces are on the border of the capital of Lodovna. The human suffering is enormous. If no one intervenes, Lodovna will fall.

THE PROPOSAL

The European Union wants to set up a joint fund to protect the Republic of Lodovna. Member states can voluntarily contribute with their remaining coins. But if not enough is collected, and we do not intervene, there is a high risk that Lodovna will fall be annexed by the Deneski Federation.

Total needed: (more than) 2/3rd of the currency still in circulation.

WORKING METHOD

Negotiating	Member states discuss the amount they think they want to contribute to the support package. During this time no coins are taken of the table or can be shown to each other. There can only be discussion, speculation and negotiations.
Budget discussion and commitment	After the negotiations each country determines their final amount they want to contribute. One minister brings the amount of coins they want to contribute in **a closed fist**. When all the ministers are at the table they will have to reveal their contribution one by one.
Result and consequences	If member states contributed (more than) 2/3rd of the total amount of coins still in circulation: • Lodovna is saved. If member states contributed less than 2/3rd of the total amount of coins still in circulation: • Lodovna falls. • All contributed coins are lost. • Countries with a high or medium security threat are now in serious danger.
